ARE YOU READY FOR THE CHALLENGE?

BERMAR Camps is about complete immersion in the Spanish language. Thus, our programs have been carefully designed and our staff have been meticulously chosen so that our students can learn and be enriched from real life situations. The activity program is focused on the

Aquatic Activities

Carried out by a company specialised in surf, stand up paddle boarding and kayak among others. Alicante's coast is the ideal place to practice aquatic activities because of its agreeable weather during the whole year. Moreover, we know water sports have several mental and bodily health benefits all while being a good recreational activity. That's why our main goal is to introduce these sports in a dynamic way to our students so they can practice them during and even after our camp.

Multi-adventure activities

We offer a huge range of outdoor activities depending on our students' preferences. All activities are lead and supervised by professionals who will be glad to help and guide our students. Moreover, to prevent our students from accidents we implement security protocols to minimise risks. We are fully covered by insurance for all our activities.

Horse Riding

It is not necessary to live in The Old West to feel like a real cowboy. Centro Hípico Equinos rely on experienced professionals who will give our students the opportunity to ride until the sun goes down.

AQUALANDIA trip

During summer camps, we give our students the opportunity to go to one of the biggest water parks in Europe. Aqualandia features water play areas adapted to all ages and it is surrounded by a beautiful natural environment.

Trip to Chocolates Valor and Jijona nougat factories.

Available from July until November.

ALICANTE

With 5km of coastline, Alicante city offers many opportunities. It has an average temperature of 25 degrees in summer and it is located in one of the most mountainous regions in Spain.

OUR HOUSE

Nuestra Señora de la Piedad is a residence located just 3 minutes walking from the beach. It has many natural open spaces and sports courts. It is the perfect place for those who are searching for a quiet and homely place to work and rest.

The residence offers many services as multi-media-equipped facilities or theater so our students have an alternative to the outdoor activities.
